Education

University of Texas at Dallas Richardson, TX
Bachelor of Science in Computer Science | Minor in Business Intelligence and Analytics *May 2027*
Awards: Dean's List, Academic Excellence Scholar

Experience

Product Manager Intern June 2026 – Aug 2026
Bluebeam *Dallas, TX*
- Compressed time to customer feedback 88% (6 months to 3 weeks) by taking an AI initiative from POC to beta program
- Found an architect-builder gap tied to millions of dollars in rework via 7 interviews, Pendo insights, and Power BI data
- Built a full-stack AI solution grounded in internal data sources (React, Express, Claude on Bedrock, EKS), benchmarking 3 AI models by document size and matching models to each REST endpoint to cut cost per call
- Drove 5 enterprise customer beta sign-ups via live demos, generating cost and usage data for future AI roadmaps via PRDs

Product Specialist July 2025 – May 2026
Apple *Dallas, TX*
- Managed customer journey from discovery to purchase through deep product knowledge with 95% customer satisfaction
- Reached 70% AppleCare enrollment (top 10% of promoters) by diagnosing problems and recommending solutions

Product Engineer Intern June 2025 – July 2025
Smart Pharma Solutions *San Ramon, CA*
- Cut regulatory report time 95% (2 hours to 6 minutes) with a Python LLM pipeline that synthesizes 70+ page PDFs
- Prototyped a drag-and-drop UI that generated reports in 10 seconds, with a review-and-approve step shaped by experts
- Accelerated information retrieval 80% by consolidating 200+ scattered product requirements into one Coda tracker

Product Designer May 2025 – June 2025
Alura *Remote*
- Ran 10 user interviews, then built a 40-component Figma design system and brand system to connect every AI feature
- Iterated 5 times on an AI chat feature and RAG-powered search, refining how it surfaces the most relevant insights to users
- Delivered 30+ screens via discovery and A/B testing, scoping feasibility with engineers and handing off in Dev Mode

Leadership

Vice President Dec 2025 – Present
Association for Computing Machinery (ACM) UTD *Richardson, TX*
- Launched the ACM Expo for all 8 divisions (100+ attendees) by leading the event and collaborating with 32+ officers
- Lead 190+ officers and own strategy, budget, and people operations for UTD's largest CS org (1000+ members)

Product Management Mentor July 2025 – Present
Alpha Kappa Psi – Mu Rho Chapter *Richardson, TX*
- Mentor 8 students across 10 workshops in a PM program (casing, rubrics, frameworks), now in its third semester
- Teach agentic development, the product lifecycle, Jira epics and task management, and review students' deliverables

Marketing Director July 2025 – Dec 2025
The User Experience Club at UTDallas *Richardson, TX*
- Grew 2nd annual Design-a-thon attendance over 60% (80 to 130+) by leading outreach, campaigns, and promo design
- Ran LinkedIn and Instagram and used analytics to guide content and boost overall reach and engagement by 46%

Projects

Nomad | Technical Product Manager | *Figma, React.js, Firebase, Python, Node.js, GitHub* Apr 2025 – May 2025
- Aligned a cross-functional team of 5 on a 4-week roadmap for a remote workspace discovery app with a functional prototype
- Validated problem through customer discovery and user research, creating a 20-page PRD, then pitched to 60 people

NOVA | Product Manager, Frontend Developer | *Figma, React Native, JSX* – WEHack Design Track Winner Mar 2024
- Won 1st of 18 Design Track teams (145 participants) by defining requirements and success metrics, prototyping and branding in Figma, and building a React Native app that matches users through a quiz to attend events together
- Scoped core features and delivered every planned feature in 24 hours, presenting a live mobile demo to judges

Technical Skills

Product: Customer discovery, roadmapping, prioritization, PRDs, user stories, requirements gathering, A/B testing, Agile/Scrum, Jira, Confluence, Coda, Pendo, Great Question, Power BI, SQL
Engineering & AI: Python, TypeScript, JavaScript, Java, C++, HTML, CSS, React, React Native, Expo, Next.js, Node.js, Express, REST APIs, Swagger, JWT/OAuth, Firebase, PostgreSQL, AWS (Bedrock, EKS, IAM), Docker, Kubernetes, Helm, Terraform, CI/CD pipelines, GitLab, Dynatrace, LLM integration and benchmarking, RAG, Claude Code, Cursor
Design: Figma, prototyping, design systems, UI/UX, user flows, design-to-code handoff, components
