Education

University of Texas at Dallas — Richardson, TX
Bachelor of Science in Computer Science | Minor in Business Intelligence and Analytics — *Dec 2027*
Awards: Dean's List, Academic Excellence Scholar

Technical Skills

Languages: Python, TypeScript, JavaScript, Java, C++, SQL, HTML, CSS
Frontend: React, React Native, Next.js, Expo, Tailwind CSS, shadcn/ui, Recharts, Figma
Backend & Data: Node.js, Express, REST APIs, Firebase, PostgreSQL, Pandas, NumPy, Matplotlib, Jupyter, Power BI
AI & ML: PyTorch, Hugging Face Transformers, DINOv2, CLIP, computer vision, LLM integration, RAG, Streamlit
Cloud & DevOps: AWS (Bedrock, EKS, IAM), Docker, Kubernetes, Helm, Terraform, CI/CD, GitHub, GitLab, Vercel

Experience

Technical Product Manager Intern — June 2026 – Aug 2026
Bluebeam — *Dallas, TX*
- Owned AI feature end-to-end, from customer discovery (7 interviews) to full-stack build in React and AWS Bedrock
- Benchmarked 3 models by document size and routed each endpoint to the most cost-efficient model to cut cost per call
- Architected AI guardrails including authentication and data minimization to protect sensitive customer data
- Took solution from POC to beta in 3 weeks instead of 6 months, demoing live to 5 enterprise customers who all joined beta

Product Specialist — July 2025 – May 2026
Apple — *Dallas, TX*
- Reached 70% AppleCare enrollment (top 10% of promoters) with 95% customer satisfaction by diagnosing needs
- Converted to permanent in 5 months, holding 99.7% inventory accuracy by analyzing data and improving workflows

Software Engineer Intern — June 2025 – July 2025
Smart Pharma Solutions — *San Ramon, CA*
- Cut regulatory report time 95% (2 hours to 6 minutes) with a Python LLM pipeline that synthesizes 70+ page PDFs
- Prototyped a drag-and-drop UI that generated reports in 10 seconds, with a review-and-approve step shaped by experts
- Accelerated information retrieval 80% by consolidating 200+ scattered product requirements into one Coda tracker

Frontend Developer — Aug 2023 – Dec 2023
Association for Computing Machinery (ACM) UTD — *Richardson, TX*
- Built the frontend of a React Native iOS/Android app, projected by user research to cut campus waste up to 50%
- Implemented a vertical scrolling feature from scratch using data structures and algorithms, and led parts of the app redesign
- Shipped in 10 weeks with a team of 4 in agile sprints, presenting a live demo to industry judges and 200+ students

Projects

Lyra | Physical AI Project | *Python, PyTorch, Hugging Face, DINOv2, CLIP, Streamlit, NumPy, Pandas* — Aug 2026 – Present
- Developing a camera-based pet health monitor that identifies each pet and tracks litter box, food, and water activity
- Built a Python computer vision test bench to differentiate look-alike pets using image embeddings and matching
- Benchmarked 9 setups (CLIP, DINOv2 small and base) on look-alike cats, raising accuracy from 49% to 96–99%

ReLeaf | HackUTD | *React.js, TypeScript, Tailwind CSS, shadcn/ui, Recharts, Vercel* — Nov 2024
- Deployed a property management web app in 24 hours, with dynamic Recharts charts and multi-property dashboards
- Built a carbon emission calculator that converts user-entered energy usage into CO_2e estimates using EPA emission factors
- Engineered a utility bill parser that extracts usage and cost data, ranks emission sources, and generates recommendations

NOVA | WEHack Design Track Winner | *React Native, JSX, Figma, GitHub* — Mar 2024
- Led React Native frontend for a cross-platform app with user profiles, algorithmic matching, and chat in 24 hours
- Migrated the app from Flutter to React Native mid-build and managed version control in GitHub, winning 1st of 18 teams

Leadership

Vice President — Dec 2025 – Present
Association for Computing Machinery (ACM) UTD — *Richardson, TX*
- Shape the vision for all 8 divisions, including ACM Projects and HackUTD, the largest 24-hour hackathon in North America
- Lead 190+ officers and own strategy, budget, and people operations for UTD's largest CS org (1000+ members)
- Launched the ACM Expo for all 8 divisions (100+ attendees) by leading the event and collaborating with 32+ officers

Product Management Mentor — July 2025 – Present
Alpha Kappa Psi – Mu Rho Chapter — *Richardson, TX*
- Teach 8 mentees to design agentic workflows and apply the product lifecycle across 10 workshops, from discovery to launch
- Built the program's rubrics and case tracks, now in its third semester, and review mentees' PRDs and Jira epics
